LIGHTER FASTER WARRIORS

## **B.L.S THE BENCH LADDER STRETCHER®**

The BLS is a joint project between MATBOCK and MAS Special Operations Training.

Designed for Wing and Zodiac inflatable boats.

Sold as a pair (bottom and upper sections) and designed to deploy as a unit.

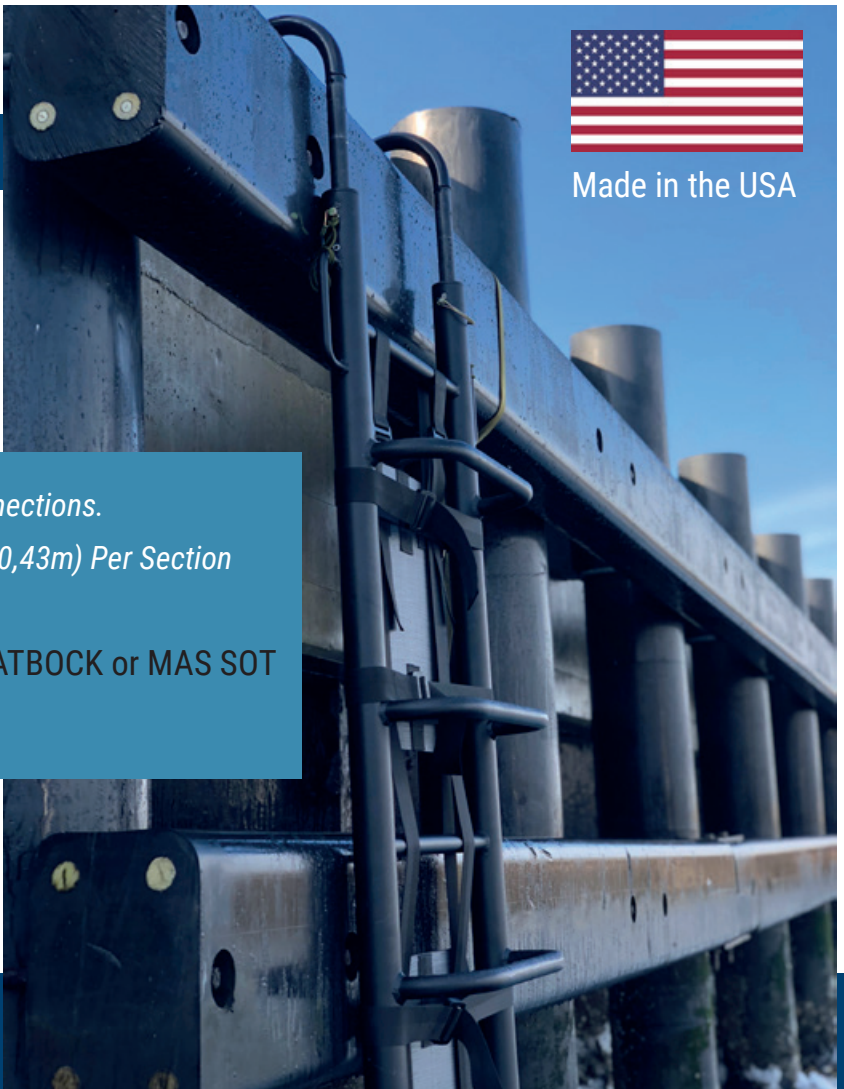

## → Bench Seats

Sits across the side tubes and can be secured to the floor with either ratchet straps or line (not included in the kit) giving space for 4 operators to sit forward facing during transit.

## → Ladder

Sections can be attached together to create a 12 foot (3.7m) ladder with integrated shepherds hooks and offset ladder rungs.

Made in the USA

## → Stretcher

If there is a casualty, a single section can be used as a stretcher to evacuate the individual as well.

- *Aluminum construction with welded connections.*
  - *Dimensions - 69" tall (1,75m) 17.5" wide (0,43m) Per Section*
  - *Weight - 20.5lbs (9.0 kg) Per Section*
- The unit can be purchased from either MATBOCK or MAS SOT
- *P/N -MB-BLS*
